

Fig.1

A diagram of a vehicle 50, shown from a perspective view. A coordinate system is defined by three axes: X, Y, and Z. The Z-axis is vertical, pointing upwards. The X-axis points towards the front-left of the vehicle. The Y-axis points towards the front-right of the vehicle. The vehicle 50 is oriented such that its front is towards the bottom-right. A point 52 is marked on the vehicle's body, near the front windshield. Two rotation indicators are shown: 60, which is a curved arrow around the X-axis, and 62, which is a curved arrow around the Y-axis.
